

Wishuppro concept (4 Technology)

Product Features

Unique petal probe design, the use of advanced ring RF technology combined with ancient jade, efficient repair skin, completely solve your skin problem. Three-color rejuvenation, improve blood circulation, promote metabolism, eliminate facial fatigue.

High, medium and low output mode plus point shock massage, suitable for all kinds of people and skin, speed up the absorption of skin care products until the bottom of the skin.

High-end LED screen and body integration.

Metal care ring, heat transfer fast, feel good, more upscale, reduce skin allergies.

Unique streamlined design allows you to enjoy the most comfortable care in a relaxed environment.

RF Beauty Principle

RF is a thermal penetration therapy that has been widely used in the international beauty care area. RF can penetrate the epidermis, direct dermis, deep heating of collagen cells that stimulate collagen fiber growth. So that can get a large number of new collagen support surface skin, then the surface muscle skin will be more compact and smooth, real to achieve anti-aging care from inside to outside

(1)Safety: non-surgical, non-invasive, no anesthesia, no injection, no pain, non-invasive, no recovery period.

(2)Fast: tighten the skin immediately. You can obviously skin tightening in one time, then get a compact effect.

(3)Lasting: can maintain a long time, so that the skin continue to produce collagen. If you insist on using 1 to 6 on 6 week protocol , wrinkles will gradually fade, the skin will restore the compact like you back young time.

Vibration Massage

Point vibration is a new feature, you can completely remove the pores of the dirt, help massage the skin cells, promote blood circulation, smooth lymph, improve edema, and effective penetration of beauty ingredients into the skin deep.

Jade Skin Care

Unique jade penetration technology, it uses nourishing skin function of natural jade, enhance skin care effect, while jade can help improve facial blood circulation, accelerate cell metabolism and help skin care products in the depth of absorption. In addition jade is used to break down, adsorption of harmful substances in the skin.
